WAX POTPOURRI

wax potpourri

BACK TO THE FUTURE Remember wax potpourri? Well, it’s back!

Big time! Wax potpourri continues to be a best seller. Actually, it never really went away due to its popularity with loyal retail customers in our stores. We have been making our version for 20 years. What makes our potpourri special is the generous level of rich fragrance we use from selected suppliers. When you mix and match fragrances you can create a personalized “recipe” depending on the number of pieces you use of each fragrance. To get you started, we have come up with a few blends that showcase bright colors and fragrance mixes. With a calendar of ideas for seasonal favorites, you can have a lot of fun with wax potpourri. We recommend melters that use a tea light as the heat source to gently melt the wax. With such strength of fragrance, only a few pieces are needed and can be re-melted again and again with the same true aromas.
